# Case Study

**Wetroom Correction  
Aylesbury, Buckinghamshire**

# The Job

C. Wood & Son were employed by Irwin Mitchell Solicitors to carry out a Level Access Bathroom floor correction, at a property in Aylesbury, Buckinghamshire.

When the wetroom was previously installed, the previous contractor had not sloped the floor correctly, so the waste was running flat and wasn't draining properly, so we had to correct this issue.

For this project we:

- Removed the specialist bath and toilet and put to one side
- Took up the Altro flooring
- Corrected shower waste with sloped floor
- Installed new vinyl flooring
- Reinstalled specialist bath and toilet
- Fixed leak on the bath
- Applied 2 coats of emulsion to kitchen ceiling
- Cleared site on completion

Our client was delighted with the final finish.
